No. Cion prop.: 5572/07 - COM(200) 17 final
Subject: Proposal for a Council Regulation laying down specific rules as regards the fruit and vegetable sector and amending certain Regulations

In view of the discussions at the Council "Agriculture and Fisheries" session on 11-12 June 2007, delegations will find attached a consolidated revised text of the draft Regulation as amended\(^1\) by the Presidency, in consultation with the Commission services.

\(^1\) The suggested changes to the Commission proposal are indicated in **bold** and deletions by [...].
Proposal for a
COUNCIL REGULATION

THE COUNCIL OF THE EUROPEAN UNION,
Having regard to the Treaty establishing the European Community, and in particular Articles 36 and 37 thereof,
Having regard to the proposal from the Commission [...],
Having regard to the opinion of the European Parliament 2,
Having regard to the opinion of the European Economic and Social Committee 3,
Having regard to the opinion of the Committee of the Regions 4,

Whereas:

2 OJ C …, …, p. …
3 OJ C …, …, p. …
4 OJ C …, …, p. …
(2) In the light of experience it is necessary to change the regime for fruit and vegetables in order to achieve the following objectives: improving the competitiveness and market orientation of the sector so as to contribute to achieving sustainable production that is competitive both on internal and external markets, reducing fluctuations in producers' income resulting from crises on the market, increasing the consumption of fruit and vegetables in the Community and continuing the efforts made by the sector to maintain and protect the environment.

(3) The Commission submitted a separate proposal for a Council Regulation establishing a common organisation of agricultural markets which could initially incorporate certain provisions of a horizontal nature covering the fruit and vegetables sector […] and applying for a range of other agricultural products, namely those on […] a management committee. It is appropriate to leave such provisions in Regulations (EC) No 2200/96 and (EC) No 2201/96. Those provisions should however be updated, simplified and streamlined so as to allow for their easy incorporation into […] the Regulation establishing a common organisation of agricultural markets.

(4) As regards other provisions specific to […] the fruit and vegetables sector, the scope of the changes to the current regime make it necessary, in the interests of clarity, to incorporate all such provisions in a separate Regulation. Where such provisions are to some extent also of a horizontal nature and apply for a range of other agricultural products, such as those on marketing standards and trade with third countries, they should also be updated and simplified so as to allow for their easy incorporation into the above mentioned […] Council Regulation establishing a common organisation of agricultural markets, at a later date. This Regulation should not, therefore, repeal or change existing instruments of […] horizontal nature unless they have become obsolete, redundant or should not, by their very nature, be dealt with at Council level.
(5) The scope of this Regulation should be products covered by the common market organisations of the markets in fruit and vegetables and processed fruit and vegetables. However, the provisions on producer organisations and interbranch organisations and agreements […] apply only to products covered by the common market organisation for fruit and vegetables and this distinction should be maintained. The scope of the common market organisation in fruit and vegetables should also be extended to certain culinary herbs to allow them to benefit from that […] regime. Thyme is currently covered in Council Regulation (EEC) No 827/68 of 28 June 1968 on the common organisation of the market in certain products listed in Annex II to the Treaty\(^8\), from which it should therefore be removed.

(6) Marketing standards, in particular relating to definition, quality, grading, weight, sizing, packaging, wrapping, storage, transport, presentation, marketing and labelling, should apply in respect of certain products to permit the market to be supplied with products of uniform and satisfactory quality. Moreover, special measures, in particular up-to-date methods of analysis and other measures to determine the characteristics of the standards concerned, may need to be adopted to avoid abuses as regards the quality and authenticity of the products presented to the consumers and the important disturbances on the markets they may give rise to[…]. […]

(7) Currently, Council Directive 2001/112/EC of 20 December 2001 relating to fruit juices and certain similar products intended for human consumption\(^9\) and Council Directive 2001/113/EC of 20 December 2001 relating to fruit jams, jellies and marmalades and sweetened chestnut purée intended for human consumption\(^10\) lay down specific provisions regarding production, composition and labelling of these products. However these rules are not fully updated to take account of developments in relevant international standards and should therefore be modified to allow for such updating.

---
The production and marketing of fruit and vegetables should take full account of environmental concerns, including cultivation practices, the management of waste materials and the disposal of products withdrawn from the market, in particular as regards the protection of water quality, the maintenance of biodiversity and the upkeep of the countryside.

Producer organisations are the basic actors [...] in the fruit and vegetables regime, the decentralised operation of which they ensure at their level. In the face of ever greater concentration of demand, the grouping of supply through these organisations continues to be an economic necessity in order to strengthen the position of producers in the market. Such grouping must be effected on a voluntary basis and must prove its utility by the scope and efficiency of the services offered by producer organisations to their members. Since producer organisations act exclusively in the interests of their members, they should be deemed as acting in the name of, and on behalf of, their members in economic matters.

Experience shows that producer organisations are the correct tool for grouping supply. However, the spread of producer organisations in different Member States has been uneven. In order to further improve the attractiveness of producer organisations, provision should be made for more flexibility in their operation wherever possible. Such flexibility should concern in particular the product range of a producer organisation, the extent of direct sales permitted and the extension of rules to non-members as well as permitting the delegation of powers or functions of producer organisations to associations of producer organisations, subject to necessary conditions, and the delegation of functions to subsidiaries.

A producer organisation should not be recognised by its Member State as able to contribute to achievement of the objectives of the common market organisation unless its articles of association impose certain requirements on it and its members. The establishment and proper functioning of operational funds require that producer organisations should in general take charge of the whole of the relevant fruit and vegetable production of their members.
(12) Producer groups in Member States which have acceded to the European Union on 1 May 2004 or thereafter and wishing to acquire the status of producer organisations in accordance with this Regulation should be allowed the benefit of a transitional period during which national and Community financial support can be given against certain commitments by the producer group.

(13) In order to give producer organisations greater responsibility for their financial decisions in particular and to gear the public resources assigned to them towards future requirements, terms should be set for the use of these resources. Joint financing of operational funds set up by producer organisations is an appropriate solution. Additional scope for financing should be permitted in particular cases. In order to control Community expenditure, there should be a cap on assistance granted to producer organisations that establish operational funds.

(14) In regions where the organisation of production is weak, the grant of additional, national, financial contributions should be allowed. In the case of Member States which are at a particular disadvantage with regard to structures, those contributions should be reimbursable by the Community.

(15) In order to simplify and reduce the cost of the scheme it could be helpful to align, where possible, the procedures and rules for the eligibility of expenditure under operational funds with those of rural development programmes by permitting Member States to establish a national strategy for operational programs.

(16) In order to further boost the impact of producer organisations and associations thereof and ensure the market as much stability as is desirable, Member States should be allowed on certain conditions to extend to non-member producers in their region the rules, particularly on production, marketing and environmental protection, adopted for its members by the organisation or association for the region concerned. Where proper justification is given, certain costs arising from this extension of the rules should be chargeable to the producers concerned since they will benefit from the extension. However, organic producers should not be subject to this extension of rules without their consent.
A number of heterogeneous aid schemes for certain fruit and vegetables have been set out in Regulations (EC) No 2200/96, (EC) No 2201/96 and (EC) No 2202/96. The number and variety of those schemes have made them complex to administer. Whilst they have been targeted at some specific fruits and vegetables, they have not been able to fully take into account regional conditions of production, and have not covered all fruit and vegetables. It is therefore appropriate to seek a different tool for supporting fruit and vegetable producers.

Furthermore, the aid schemes for fruit and vegetables were not fully integrated into Council Regulation (EC) No 1782/2003 of 29 September 2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers. This had led to certain complexities and rigidities in the administration of that scheme.

In the interests of a more targeted but flexible system of support for the fruit and vegetables sector and in the interests of simplification, it is therefore appropriate to abolish the existing aid schemes and include fruit and vegetables fully into the scheme established by Regulation (EC) No 1782/2003. To this end it is necessary to provide that farmers who produced fruit and vegetables in the reference period should be eligible for the single payment scheme. Provision should also be made for the establishment by Member States of reference amounts and eligible hectares under the single payment scheme on the basis of a representative period appropriate to the market of each fruit and vegetable product and of appropriate objective and non-discriminatory criteria. Areas planted with fruit and vegetables, including permanent fruits and vegetables should be eligible to the single payment scheme. National ceilings should be amended appropriately. Provision should also be made for the Commission to adopt detailed implementing rules and any necessary transitional measures with regard to the above.

---

The production of fruit and vegetables is unpredictable and the products are perishable. Surplus on the market, even if it is not too great, can strongly disturb the market. Some schemes for market withdrawals have been operated but have proved somewhat complex to administer. Some further measures for crisis management should be introduced, in a manner as easy to apply as possible. Integration of all such measures into the operational programmes of producer organisations appears the best approach in these circumstances, and should also provide for increased attractiveness of producer organisations for producers.

The integration of potatoes into the scheme set out in Regulation (EC) No 1782/2003 implies that, in order to safeguard the proper working of the single market based on common prices, the provisions of the Treaty governing State aid should also apply to the potatoes.

Council Regulation (EC) No 2826/2000 of 19 December 2000 on information and promotion actions for agricultural products on the internal market\(^{12}\) provides for a Community contribution to certain promotion actions of up to 50%. In order to promote the consumption of fruit and vegetables amongst young people, that percentage should be increased for promotion of fruit and vegetables targeted towards children under 18.

Interbranch organisations set up on the initiative of individual or already grouped operators can, if they account for a significant proportion of the members of the various occupational categories of the fruit and vegetable sector, contribute to behaviour taking closer account of market realities and facilitate a commercial approach that will improve production reporting, [...] in particular, as regards the organisation of production, product presentation and marketing. Since the work of these organisations is able to contribute in general to attaining the objectives of Article 33 of the Treaty, and in particular those of this Regulation, it should, once the relevant forms of action are defined, be possible to grant specific recognition to those organisations which provide proof of sufficient representativeness and carry out practical action in regard to those objectives. The provisions on extending the rules adopted by producer organisations and their associations and on sharing the costs resulting from such extension should, given the similarity of the objectives pursued, also apply to interbranch organisations.

The creation of a single Community market involves the introduction of a trading system at the external borders of the Community. That trading system should include import duties and should, in principle, stabilise the Community market. The trading system should be based on the undertakings accepted under the Uruguay Round of multilateral trade negotiations.

The application of the entry price system for fruit and vegetables requires the adoption of specific provisions to take account of the international commitments of the Community.

Monitoring the volume in trade in agricultural products with third countries may, in respect of certain products, require the introduction of licensing systems for imports and exports including the lodging of a security to ensure that the transactions for which such licences are issued are actually carried out. The Commission should, therefore, be empowered to introduce licensing systems in respect of such products.

In order to prevent or counteract adverse effects on the Community market which could result from imports of certain agricultural products, imports of such products should be subject to payment of an additional duty, if certain conditions are fulfilled.

It is appropriate, under certain conditions, to confer on the Commission the power to open and administer tariff quotas resulting from international agreements concluded in accordance with the Treaty or from other acts of the Council.

The customs duty system makes it possible to dispense with all other protective measures at the external frontiers of the Community. The internal market and duty mechanism could, in exceptional circumstances, prove to be inadequate. In such cases, in order not to leave the Community market without defence against disturbances that might ensue, the Community should be able to take all necessary measures without delay. Such measures should comply with the international commitments of the Community.
To ensure that those trading arrangements can function properly, provision should be made for regulating or, when the situation on the market so requires, prohibiting the use of inward or outward processing arrangements.

To continue to provide for a legal base for export refunds for sugar incorporated into certain processed fruit and vegetables products as proved for in Article 16(1)(b) of Regulation (EC) No 2201/96, which is to be repealed, the list of products concerned should be added to that contained in Annex VII of Council Regulation (EC) No 318/2006 of 20 February 2006 on the common organisation of the markets in the sugar sector.\(^{13}\)

Since the common markets in agricultural products are continuously evolving, the Member States and the Commission should keep each other informed of relevant developments.

The proper working of the single market based on common prices would be jeopardised by the granting of national aid. Therefore, the provisions of the Treaty governing State aid should, as a general rule, apply to the products covered by this Regulation.

Expenditure incurred by the Member States as a result of the obligations arising from the application of this Regulation should be financed by the Community in accordance with Regulation (EC) No 1290/2005.\(^{14}\)

The fruit and vegetables regime provides for certain obligations to be respected. To guarantee compliance with these obligations, there is a need for controls and the application of penalties in case of non-compliance with such obligations. The power should, therefore, be conferred on the Commission to set up the corresponding rules including those concerning the recovery of undue payments and on the reporting obligations of the Member States. The special corps of inspectors in the fruit and vegetables sector will no longer be necessary under the new regime and may be abolished.

[...](35) The aid scheme established by Regulation (EC) No 2202/96 is to be abolished. That Regulation thus will no longer have any purpose and should therefore be repealed.

[...](36) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission. In the interests of simplification, the separate committees for fresh fruit and vegetables and processed fruit and vegetables should be abolished and replaced with a single committee for fruit and vegetables to be set up in Council Regulation (EC) No 2200/96.

[...](37) The change-over from the existing arrangements to those provided for by this Regulation could give rise to difficulties which are not dealt with in this Regulation. In order to deal with such difficulties, the Commission should be enabled to adopt transitional measures. Further, provision should be made for continued recognition of producer organisations and associations of producer organisations recognised under Regulation (EC) No 2200/96 and the possible continuation of operational programmes approved under that Regulation, as well as similar provisions for producer groups recognised under Regulation (EC) No 2200/96 and their recognition plans.

[...](38) This Regulation should, as a general rule, apply from 1 January 2008. However in order to avoid the interruption of the aid schemes for processed fruit and vegetable products and citrus fruits part-way through a marketing year, such aid schemes should be allowed to run until the end of the 2007/2008 marketing year,

5. **Producer organisations shall be deemed as acting in the name of, and on behalf of, their members in economic matters.**

**Article 4**

**Recognition**

1. Member States shall recognise as producer organisations for the purposes of this Regulation all [...] legal entities or clearly defined parts of legal entities applying for such recognition, [...] provided that:

(a) they meet the requirements laid down in Article 3 and provide the relevant evidence therefor[...];
(b) they have a minimum number of members and cover a minimum volume or value of marketable production to be laid down by Member States, and provide the relevant evidence therefor;

 [...] (c) there is sufficient evidence that they can carry out their activities properly, both over time and in terms of effectiveness and concentration of supply, to which end Member States may decide which of the products, or groups of products referred to in Article 3(1)(a) should be covered by the producer organisation;

 [...] (d) they effectively enable their members to obtain technical assistance in using environmentally-sound cultivation practices;

 [...] (e) they effectively provide their members, where [...] necessary, with the technical means for collecting, storing, packaging and marketing their produce [...];

   (c) notify the Commission, once per year, of every decision to grant, refuse or withdraw recognition.

Article 5

[...] Associations of producer organisations

[...] An association of producer organisations shall be formed on the initiative of recognised producer organisations and may carry out any of the activities of a producer organisation referred to in this Regulation. To this end Member States may recognise, on request, an association of producer organisations where:

Article 3(5) shall apply mutatis mutandis to actions of associations of producer organisations.

Article 5a

Outsourcing

Member States may permit a recognised producer organisation or a recognised association of producer organisations to outsource any of its activities, including to subsidiaries, provided that it provides sufficient evidence to the Member State that doing so is an appropriate way to achieve the objectives of the producer organisation or association of producer organisations concerned.
Article 6

[...]Producer groups

1. For the purposes of this Regulation, a producer group shall be any legal entity or clearly defined part of a legal entity which is formed on the initiative of farmers within the meaning of Article 2(a) of Regulation (EC) No 1782/2003, who are growers of one or more products listed in Article 1(2) of Regulation (EC) No 2200/96 and/or of such products solely intended for processing, with a view to being recognised as a producer organisation.

Producer [...] groups in Member States which acceded to the [...] European Union on 1 May [...]2004 or thereafter, or in the outermost regions of the Community as referred to in Article 299(2) of the Treaty or in the smaller Aegean Islands as referred to in Article 1(2) of Regulation (EC) No 1405/2006 may be allowed a transitional period [...] in which to meet the conditions for recognition laid down in Article 4.

In order to qualify, those producer groups [...] shall present a phased recognition plan to the relevant Member State, acceptance of which shall signal the start of the [...] transitional period referred to in the first subparagraph and shall constitute a preliminary recognition. The transitional period shall be no more than five years long.

2. Before acceptance of the recognition plan, Member States shall inform the Commission of their intentions and the likely financial implications thereof.

[...]3. During the [...] transitional period, Member States may grant to the producer [...] groups referred to in paragraph 1:
(a) aid to encourage their formation and facilitate their administrative operation;
(b) aid, provided either directly or through credit institutions, [...] to cover part of the investments required to attain recognition and set out in the recognition plan referred to in the second subparagraph of paragraph 1.

[...]4. The aid referred to in paragraph 3 shall be reimbursed by the Community in accordance with the rules adopted pursuant to Article 39(b)(ii).
5. The aid referred to in paragraph 3(a) shall be determined for each producer group on the basis of its marketed production and shall amount, for the first, second, third, fourth and fifth years, to:

(a) 10%, 10%, 8%, 6% and 4% respectively of the value of marketed production in the Member States which acceded to the European Union on 1 May 2004 or thereafter, and

(b) 5%, 5%, 4%, 3% and 2%, respectively of the value of marketed production in the outermost regions of the Community as referred to in Article 299(2) of the Treaty or in the smaller Aegean Islands as referred to in Article 1(2) of Regulation (EC) No 1405/2006.

Those rates may be reduced in relation to the value of marketed production which exceeds a threshold. A ceiling may be applied to the aid payable in any given year to a producer group.

Chapter II
Operational funds and operational programmes

Article 7
Operational funds

1. Producer organisations may set up an operational fund. The fund shall be […] financed by:

(a) financial contributions of members or of the producer organisation itself;

(b) Community financial assistance which may be granted to producer organisations […]

2. Operational funds shall be used only to finance operational programmes approved by Member States in accordance with Article 12.

[...]
Article 8

[...] Operational programmes

1. Operational programmes shall have [...] two or more of the objectives referred to in Article 3(1)(ba) or of the following objectives:

   (a) planning of production,
   (b) improvement of product quality,
   (c) boosting products' commercial value,
   (d) promotion of the products[...], whether in a fresh or processed form,
   (e) [...] environmental measures and methods of production respecting the environment, including organic farming,
   (f) crisis prevention and management.

2. Crisis prevention and management shall be related to avoiding and dealing with crises on the fruit and vegetable markets and shall cover in this context:

   (a) market withdrawal,
   (b) green harvesting or non-harvesting of fruit and vegetables,
   (c) promotion and communication,
   (d) training measures,
   (e) harvest insurance,
   (f) support for the administrative costs of setting up mutual funds.

Crisis prevention and management measures [...] shall not comprise more than one-third of the expenditure under the operational programme.

In order to finance crisis prevention and management measures, producer organisations may take out loans on commercial terms. In this case, the repayment of the capital and interest on those loans may form part of the operational programme, up to a limit of 20% of the expenditure under the operational programme in any given year, and so may be eligible for Community financial assistance under Article 9. Any specific action under crisis prevention and management shall be financed either by such loans, or directly, but not both.
3. Member States shall provide that:

(a) operational programmes shall include two or more environmental actions, or
(b) at least 20% of the expenditure under operational programmes shall cover environmental actions.

Where all the producer members of a producer organisation are subject to one or more identical agri-environment commitments under that provision then each one of those commitments shall count as an environmental action as referred to in point (a) of the first subparagraph.

Support for the environmental actions referred to in the first subparagraph shall cover additional costs and income foregone resulting from the action.

4. Investments which increase environmental pressure shall only be permitted in situations where effective safeguards to protect the environment from these pressures are in place.

Article 9

Community financial assistance

1. The Community financial assistance shall be equal to the amount of the financial contributions referred to in Article 7(1)(a) as actually paid but limited to 50% of the actual expenditure incurred.

2. The Community financial assistance shall be capped at 4.1% of the value of the marketed production of each producer organisation.

---

3. **At the request of a producer organisation, the** percentage provided for in […] paragraph 1 shall be 60% **for** […] an operational programme or part of an operational programme **where it** meets at least one of the following conditions:

(a) it is submitted by several Community producer organisations operating in different Member States on transnational schemes;

(b) it is submitted by one or more producer organisations engaged in schemes operated on an interbranch basis;

(c) it covers solely specific support for the production of organic products covered by Council Regulation (EC) No 2092/91\(^{17}\);

(d) it is submitted by a producer organisation in one of the Member States which acceded to the […] **European Union on 1 May** 2004 or thereafter for measures running no later than the end of 2013;

(e) it is the first to be submitted by a recognised producer organisation which has merged with another recognised producer organisation […];

(f) **it is the first to be submitted by a recognised association of producer organisations**;

[g) it is submitted by producer organisations in Member States where producer organisations market less than 20% of fruit and vegetables production;

(h) it is submitted by a producer organisation in one of the outermost regions of the Community[…];

(i) it covers solely specific support for actions to promote the consumption of fruit and vegetables targeted at children in educational establishment.

4.[…]The percentage provided for in […] paragraph 1 shall be 100% in the case of market withdrawals of fruit and vegetables which shall not exceed 5% of the […] **volume** of […] marketed production of each producer organisation and which are disposed of by way of:

(a) free distribution to charitable organisations and foundations, approved to that effect by the Member States, for use in their activities to assist persons whose right to public assistance is recognised in national law, in particular because they lack the necessary means of subsistence;

(b) free distribution to penal institutions, schools and public education institutions and to children's holiday camps as well as to hospitals and old people's homes designated by the Member States, which shall take all necessary steps to ensure that the quantities thus distributed are additional to the quantities normally bought in by such establishments.

**Article 10**

**National financial assistance**

1. In regions of the [...] **Member States** where the degree of organisation of producers is particularly low, Member States may be authorised by the Commission, on a duly substantiated request, to pay producer organisations national financial assistance equal to a maximum of [...] **50%** of the financial contributions [...] referred to in Article 7(1)(a). This assistance shall be additional to the operational fund.

In regions of Member States where producer organisations market less than **15%** of the value of fruit and vegetable production and whose fruit and vegetable production represents at least **15%** of their total agricultural output, the assistance referred to in the first subparagraph may be [...] reimbursed by the Community at the request of the Member State concerned.

2. Articles 87, 88 and 89 of the Treaty shall not apply to the national financial assistance [...] authorised [...] pursuant to paragraph 1.

**Article 11**

**National framework and national strategy for [...] operational programmes**

1. Member States shall establish a national framework for drawing up the general conditions relating to the [...] **actions** referred to in [...] Article 8(3[...]). This framework shall provide in particular that [...] **such actions shall meet the appropriate requirements of Regulation (EC) No 1698/2005 including those in its Article 5 on complementarity, consistency and conformity.**

Chapter III

Extension of rules to producers of an economic area

Article 13

Extension of rules

1. In cases where a producer organisation which operates in a specific economic area is considered, in respect of a specific product, to be representative of production and producers in that area, the Member State concerned may, at the request of the producer organisation, make the following rules binding on producers established in that economic area who do not belong to the producer organisation:

   (a) the rules referred to in Article 3(2)(a),
   (b) the rules referred to in Article 8(2)(c).

The first subparagraph shall apply on condition that those rules:

   (a) have been in force for at least one marketing year,
   (b) are included in the exhaustive list in Annex I,
   (c) are made binding for no more than three marketing years.

However, the condition referred to in point (a) of the second subparagraph shall not apply if the rules concerned are those listed in points 1(a) to (f), point 3(a) and (b) [and (c) and (d)] and point 5 of Annex I. In this case, the extension of rules may not apply for more than one marketing year.

2. For the purposes of this Chapter, "economic area" means a geographical zone made up of adjoining or neighbouring production regions in which production and marketing conditions are homogeneous.

Member States shall notify a list of economic areas to the Commission.

Within one month of notification, the Commission shall approve the list or shall, after consultation with the Member State concerned, decide on the amendments which the latter must make to it. The Commission shall make the approved list publicly available by the methods it considers appropriate.
3. A producer organisation shall be deemed representative within the meaning of paragraph 1 where its members account for at least 50% of the producers in the economic area in which it operates and it covers at least 60% of the volume of production of that area. In calculating these percentages account shall not be taken of producers or production of organic products covered by Regulation (EC) No 2092/91.

4. The rules which are made binding on all producers in a specific economic area:
   (a) [...] shall not cause any [...] damage to other producers in the Member State concerned or in the Community;
   (b) shall not apply, unless they expressly cover them, to products delivered for processing under a contract signed before the beginning of the marketing year, with the exception of the rules on production reporting referred to in [...]Article 3(2)(a);
   (ba) shall not apply in respect of organic products covered by Regulation (EC) No 2092/91;
   (c) [...] shall not [...] be incompatible with Community and national rules in force.

   Article 14

   Notification [...]
(b) [...] where it finds that Article 81(1) of the Treaty applies to the [...] rules extended to other producers. The Commission's decision with regard to those rules [...] shall apply only from the date of such a finding;
(c) where it finds after checks that this Chapter has not been complied with.

Article [...] 16

Financial contributions of non-member producers

Where Article 13(1) is applied, the Member State concerned may decide, on scrutiny of evidence presented, that non-member producers shall be liable to the producer organisation for the part of the financial contributions paid by the producer members, insofar as these are used to cover:
(a) administrative costs resulting from applying the rules referred to in Article 13(1);
(b) the cost of research, market studies and sales promotion undertaken by the organisation or association and benefiting all producers in the area.

Article 16a

Extension of rules of associations of producer organisations

For the purposes of this Chapter, any reference to producer organisations shall also be construed as a reference to recognised associations of producer organisations.

Article 17

The Commission shall present a report to the European Parliament and Council by 31 December 2013 at the latest on the implementation of this Title as regards producer organisations, operational funds and operational programmes.
TITLE IV
Interbranch organisations and agreements

Chapter I
Requirements [...]and recognition

Article [...] 18
Requirements [...]
Recognition

1. If warranted by the Member State's structures, Member States may recognise as interbranch organisations within the meaning of this Regulation all organisations established on their territory which make an appropriate application, on condition that:

   (a) they carry out their activity in one or more regions in [...] the Member State concerned;
   
   (b) they represent a significant share of the production of and/or trade in and/or processing of fruit and vegetables and products processed from fruit and vegetables in the region or regions in question and, where more than one region is involved, they can demonstrate a minimum level of representativeness in each region for each of the branches that they group;
   
   (c) they carry out [...] two or more of the [...] activities referred to in Article [...] 18(c);
   
   (d) they are not themselves engaged in the production or processing or marketing of fruit and vegetables or products processed from fruit and vegetables;
   
   (e) they do not [...] engage in any of the [...] agreements, decisions and concerted practices referred to in Article [...] 20(4).

2. Before granting recognition Member States shall notify the Commission of the interbranch organisations which have applied for recognition, providing all relevant information about their representativeness and their various activities, together with all other information needed for an assessment.

   The Commission may object to recognition within a time limit of two months after notification.
3. Member States shall:
   (a) decide whether to grant recognition within three months of the lodging of an application with all relevant supporting documents;
   (b) carry out checks at regular intervals to ascertain that interbranch organisations comply with the terms and conditions for recognition, impose the penalties on such organisations in the event of non-compliance or irregularities concerning the provisions of this Regulation […] and […] decide, where necessary, to withdraw […] recognition;
   (c) withdraw recognition if:
      (i) the […] requirements and conditions for recognition laid down in this Chapter are no longer met;
      (ii) the interbranch organisation […] engages in any of the agreements, decisions and concerted practices referred to in Article 20(3), without prejudice to any other penalties to be imposed […] pursuant to national law;
      (iii) the interbranch organisation fails to comply with the notification obligation referred to in Article […]20(2);
   (d) notify the Commission, within two months, of any decision to grant, refuse or withdraw recognition.

4. The terms and conditions on which and the frequency with which the Member States are to report to the Commission on the activities of interbranch organisations shall be drawn up in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

   The Commission may, as a result of checks, […] request a Member State to withdraw recognition.

5. Recognition shall constitute an authorisation to carry out the […] activities listed in Article […]18(c), […] subject to the terms of this Regulation.
6. The Commission shall make publicly available [...] a list of recognised [...] interbranch organisations [...], by the methods it considers appropriate, indicating the economic sphere or the area of their activities and the activities carried out within the meaning of Article [...] 21. Withdrawals of recognition shall also be made publicly available.

Chapter II

Competition rules

Article [...] 20

Application of competition rules

1. Notwithstanding Article 1 of Council Regulation (EC) No 1184/200619, Article 81(1) of the Treaty shall not apply to the agreements, decisions and concerted practices of recognised interbranch organisations with the object of carrying out the activities [...] referred to in Article [...] 18(c) of this Regulation.

2. Paragraph 1 shall apply only provided that:
   (a) the agreements, decisions and concerted practices have been notified to the Commission;
   (b) within two months of receipt of all the details required the Commission has not found that the agreements, decisions or concerted practices are incompatible with Community rules.

3. The agreements, decisions and concerted practices may not be put into effect before the lapse of the period referred to in paragraph 2(b) [...].

---

4.[…] The following agreements, decisions and concerted practices shall in any case be declared incompatible with Community rules:

(a) agreements, decisions and concerted practices which may lead to the partitioning of markets in any form within the Community;

(b) agreements, decisions and concerted practices which may affect the sound operation of the market organisation;

(c) agreements, decisions and concerted practices which may create distortions of competition which are not essential to […] achieving the objectives of the common agricultural policy pursued by the interbranch organisation activity […] ;

(d) agreements, decisions and concerted practices which entail the fixing of prices, without prejudice to activities carried out […] by interbranch organisations in the application of specific […] Community rules;

(e) agreements, decisions and concerted practices which may create discrimination or eliminate competition in respect of a substantial proportion of the products in question.

5.[…] If, following expiry of the two-month period referred to in […] paragraph […]2(b), the Commission finds that the conditions for applying paragraph 1 have not been met, it shall take a […] Decision declaring that Article 81(1) of the Treaty applies to the agreement, decision or concerted practice in question.

That Commission[…] Decision shall not apply earlier than the date of its notification to the interbranch organisation concerned, unless that interbranch organisation has given incorrect information or abused the exemption provided for in paragraph 1.

6.[…] In the case of multiannual agreements, the […] notification for the first year shall be valid for the subsequent years of the agreement. However, in that event, the Commission may, on its own initiative or at the request of another Member State, issue a finding of incompatibility at any time.
Chapter III

Extension of rules

Article [...] 21

Extension of rules

1. In cases where an interbranch organisation operating in a specific region or regions of a Member State is considered to be representative of the production of or trade in or processing of a given product, the Member State concerned may, at the request of [...] that interbranch organisation, make binding some of the agreements, decisions or concerted practices agreed on within that organisation [...] for a limited period on other operators operating in the region or regions in question, whether individuals or groups, who do not belong to the organisation.

2. An interbranch organisation shall be deemed representative within the meaning of paragraph 1 where it accounts for at least two thirds of the production or trade in or processing of the product or products concerned in the region or regions concerned of a Member State. Where the application for extension of its rules to other operators covers more than one region, the interbranch organisation must demonstrate a minimum level of representativeness for each of the branches it groups in each of the regions concerned.

3. The rules for which extension to other operators may be requested:
   (a) shall have [...] one of the following aims:
      (i) production and market reporting,
      (ii) stricter production rules than those laid down in Community or national rules,
      (iii) drawing up of standard contracts which are compatible with Community rules,
      (iv) rules on marketing,
      (v) rules on protecting the environment,
      (vi) measures to promote and exploit the potential of products,
      (vii) measures to protect organic farming as well as designations of origin, quality labels and geographical indications;
(b) shall […] have been in force for at least one marketing year;
(c) may be made binding for no more than three marketing years;
(d) shall […] not cause any damage[…] to other operators in the Member State concerned or the Community.

However, the condition referred to in point (b) of the first subparagraph shall not apply if the rules concerned are those listed in points 1(a) to (f), point 3(a) and (b) [and (c) and (d)] and point 5 of Annex I. In this case, the extension of rules may not apply for more than one marketing year.

4. The rules referred to in paragraph 3 […](a)(ii),(iv) and(v) […] shall […]not be other than those set out in Annex I. The rules referred to in paragraph 3[…] shall not apply to products which were produced outside the specific region or regions referred to in paragraph 1.

Article […]22

Notification and repeal

1. Member States shall notify the Commission forthwith of the rules which they have made binding on all operators in one or more specific regions pursuant to Article 21[…](1). The Commission shall make those rules publicly available by the methods it considers appropriate.

2. Before the rules are made publicly available, the Commission shall inform the Committee set up by Article 46(1) of Regulation (EC) No 2200/96 of any notification of the extension of interbranch agreements.

3. The Commission shall decide that a Member State must repeal an extension of the rules decided on by that Member State in the cases referred to in Article […]15.
Article [...] 23

Financial contributions of non-members

In cases where rules for one or more products are extended and where one or more of the activities referred to in [...] Article [...]21(3)(a) are pursued by a recognised interbranch organisation and are in the general economic interest of those persons whose activities relate to one or more of the products concerned, the Member State which has granted recognition may decide that individuals or groups which are not members of the interbranch organisation but which benefit from those activities shall pay the organisation all or part of the financial contributions paid by its members to the extent that such contributions are intended to cover costs directly incurred as a result of pursuing the activities in question.

(b) the application of any quantitative restriction or measure having equivalent effect.

Article [...]25

The general rules for interpreting the Combined Nomenclature and the special rules for its application shall apply to the tariff classification of products covered by this Title. The tariff nomenclature resulting from the application of this Regulation shall be included in the Common Customs Tariff.
Chapter II
Imports

Section I
Import licences

Article [...]26
Optional Import Licence Systems

The Commission may decide that imports into the Community of one or more products falling within the scope of this Regulation shall be subject to presentation of an import licence.

Article [...]27
Issue of licences

Import licences shall be issued by Member States to any applicant, irrespective of his place of establishment in the Community, unless a Council Regulation or an agreement concluded in accordance with Article 133 or Article 300 of the Treaty provides otherwise, and without prejudice to measures taken for the application of Section III.

Article [...]28
Validity

Import licences shall be valid throughout the Community.

Article [...]29
Security

1. Licences shall be issued subject to the lodging of a security guaranteeing that the products are imported during the term of validity of the licence.

2. Except in cases of force majeure, the security shall be forfeited in whole or in part if the import is not carried out, or is carried out only partially, within the period of validity of the licence.
Implementing rules
Detailed rules for the application of this Section, including the term-of validity of the licences, shall be adopted in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

Section II
Import duties and entry price system

Import duties
Save as otherwise provided for in this Section, the rates of import duty in the Common Customs Tariff shall apply to products falling within the scope of this Regulation.

Entry price system
1. Should application of the common customs tariff duty rate depends on the entry price of the imported consignment, the veracity of this price shall be checked using a flat-rate import value calculated by the Commission, by product and by origin, on the basis of the weighted average of prices for the product on Member States' representative import markets or on other markets, where appropriate.

Specific provisions may, however, be adopted for verifying the entry price of products imported primarily for processing, in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

2. Where the declared entry price of the consignment in question is higher than the flat-rate import value, increased by a margin set in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96 which may not exceed the flat-rate value by more than 10%, the lodging of a security equal to the import duty determined on the basis of the flat-rate import value shall be required.
3. If the entry price of the consignment in question is not declared at the time of customs clearance, the common customs tariff duty rate to be applied shall depend on the flat-rate import value or be arrived at by application of the relevant customs legislation provisions under conditions to be determined in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

4. Detailed implementing rules for the application of paragraphs 1, 2 and 3 shall be adopted in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

**Article [...]33**

**Additional import duties**

1. An additional import duty shall apply to imports at the rate of duty laid down in Articles 29 and 30 of one or more products falling within the scope of this Regulation, in order to prevent or counteract adverse effects on the market of the Community-which may result from those imports, if:
   (a) the imports are made at a price below the level notified by the Community to the World Trade Organisation ("the trigger price"); or
   (b) the volume of imports in any year exceeds a certain level ("the trigger volume").

The trigger volume shall be based on market access opportunities defined as imports as a percentage of the corresponding domestic consumption during the three previous years.

2. Additional import duties shall not be imposed where the imports are unlikely to disturb the Community market, or where the effects would be disproportionate to the intended objective.

3. For the purposes of paragraph 1(a), import prices shall be determined on the basis of the cif import prices of the consignment under consideration.

Cif import prices shall be checked against the representative prices for the product on the world market or on the Community import market for that product.

4. Detailed rules for the application of paragraphs 1, 2 and 3 shall be adopted in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96. Such detailed rules shall specify in particular:
   (a) the products to which additional import duties shall be applied;
   (b) the other criteria necessary to ensure application of paragraph 1 of this Article.
Section III

Import quota management

Article [...]34

Tariff quotas

1. Tariff quotas for imports of products falling within the scope of this Regulation resulting from agreements concluded in accordance with Article 300 of the Treaty or from any other act of the Council shall be opened and administered by the Commission under detailed rules adopted in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96.

2. Tariff quotas shall be administered in a manner which avoids any discrimination between the operators concerned, by applying one of the following methods or a combination of them or another appropriate method:
   (a) a method based on the chronological order of the lodging of applications ("first come, first served" principle);
   (b) a method of distribution in proportion to the quantities requested when the applications were lodged (using the "simultaneous examination method");
   (c) a method based on taking traditional trade patterns into account (using the "traditional/newcomers method").

3. The method of administration adopted shall, where appropriate, give due weight to the supply requirements of the Community market and the need to safeguard the equilibrium of that market.

Article [...]34a

Opening of Tariff Quotas

The Commission, in accordance with the procedure referred to in Article 46(2) of Regulation (EC) No 2200/96, shall provide for the annual tariff quotas, if necessary suitably phased over the year and shall determine the administrative method to be used.
Detailed rules for the implementation of this Section shall be adopted in accordance with the same procedure, in particular on:

(a) guarantees covering the nature, provenance and origin of the product;
(b) recognition of the document used for verifying the guarantees referred to in point (a);
(c) the conditions under which import licences shall be issued and their term of validity.

Section IV

Section II
